

Trade Lynks

http://www.tradelynks.com

The brief – To create a corporate website, extranet and eCommerce system for the new Trade Lynks support brand backed by the Epwin Group. The website will be the main contact point and admin system for companies who join the Trade Lynks programme.

The Project

The project involved developing the main website design plus a bespoke extranet and full eCommerce system including integration with the payment service provider and uploading all products.

Features

Content Management, Log-in System, Member Management and eCommerce system.

Budget for similar site

£8k – £18k.

Result

The Trade Lynks project has completed its pilot phase and is being rolled out to hundreds of companies around the United Kingdom. The website is the main source of information for all those companies.

Client Feedback

“RealtyHouse has already developed four sites for the Epwin group and we’re currently working on a number of new projects. Most importantly the company has also been cost-effective and constantly provides a stream of new and interesting ideas.”
